If you are unable to complete the course/experience on time due to illness (with medical documentation provided) or other valid reason as determined by the principal or school counselor, an extension may be permitted and/or requirements revised. If you do not intend to complete the course/experience and there has been an illness or other valid reason, the application may be withdrawn without penalty by the principal or school counselor.

The Flexible Credit course/experience must be completed prior to May 1st of the student's graduating year in order for the grade and credit to appear on the final transcript.

Should a student transfer to another school district, upon request of the student or parent, a copy of the approved application shall be forwarded from Barberton High School to the new district for their consideration.

Flexible Credit Application – Part B (con't.)

A student at Barberton High School who wishes to earn credit for an independent study, internship, or travel experience will be required to complete a comprehensive student portfolio and, in most cases, pass an end of course assessment for that area of study. The portfolio is intended to capture the process of your learning and growth in the selected content area and must focus on the attainment of the specific learning outcomes stated on the Flexible Credit application. The portfolio must provide evidence of mastery and include a student reflection and self-assessment. The portfolio should be designed to showcase your final product.

If the chosen course/experience is intended to substitute for a required BHS course, the end of course assessment will test mastery of the Academic Content Standards. For all other courses/experiences, an assessment will be given that is appropriate for that respective course/experience. Assessments will be developed by the Barberton High School professional staff.

Format for Application Submission

Using the attached "Learning Outcomes Worksheet" provide:

- A minimum of eight (8) clearly defined learning outcomes (goals) per semester that are tied directly to Ohio's Academic Content Standards. The Academic Content Standards can be found on the Ohio Department of Education's webpage at www.ode.state.oh.us. Learning outcomes could also be created using topics from the textbook for that particular subject or BHS course maps found on the BHS website.
- 2. Clearly defined activities that will lead to successful attainment of each stated learning outcome.
- 3. A timeline with checkpoints to monitor progress including target dates for the mastery of each stated learning outcome.

Submit 2 copies of your application. When your plan is approved, one copy will be returned to you, the other copy will be retained by the evaluation committee.

Format for Portfolio Submission

Your end of course/activity portfolio must be submitted in a binder with your name and the title of your Flexible Credit opportunity on the front of the binder. You are strongly encouraged to word process your document to the maximum extent possible. Your word processed document should use **Times New Roman font size 12 with line spacing 1.5.** The binder must include in sequential order:

1. Credit Flex Application Part C

2. Learning Outcomes (Goals) as listed on your application.

Goal setting involves establishing specific, measureable and time-targeted objectives fulfilling all of the BHS end of course standards or the Ohio Department of Education (ODE) Academic Content Standards for that subject area. You may use a school issued textbook to assist in constructing your learning outcomes. You must have no fewer than eight (8) measurable learning outcomes per semester course.

3. Evidence of Mastery (Artifacts)

Your portfolio must contain at least three (3) artifacts showing evidence of mastery of each learning outcome. Where possible, you are encouraged to submit a word processed portfolio. Examples of student evidence/artifacts that might be included in your portfolio. (You are not limited to these):

- Chapter Outlines
- Research Papers
- Interviews
- Article Reviews
- Experiments Using the Scientific Method
- Case Studies
- Test / Quiz Scores
- Awards or other recognition
- Project-Based Research
- On The Job Training- Demonstration of the acquisition of skills
- Teacher, Mentor or Peer Comments

Flexible Credit Application – Part B (con't.)

- Samples of earlier and later work to document progress
- Drafts of work to illustrate path taken to its final form
- Posters, hands on activities that demonstrate comprehension in a creative way
- Documentation of experiences (written or photographed)
- Representative samples of any work aligned with respective learning outcomes/standards

All artifacts displayed in the completed portfolio must relate to understanding of the Academic Content Standards of that subject area. You must submit three (3) pieces of evidence (artifacts) for each learning outcome. You must provide clear, consistent references to items of evidence that facilitate the reader locating each piece of evidence as they read the portfolio. If using the textbook, please reference as needed.

4. Reflection

You will be required submit a 3 to 4 page reflection describing how your artifacts helped you develop mastery of the subject matter. Examples of what may be included (You are not limited to these.):

- Reflect on your favorite/least favorite pieces of work
- Reflect on what has been learned from you work
- Reflect on experiences you have had over the course of your study
- Reflect on how well samples indicate attainment of the standards and learning outcomes
- Reflect on your attitude of the flex credit experience
- Reflect on your progress over the course of your study
- Comment on the strengths and weaknesses of your work

5. Self-Assessment

The self-assessment section of the student portfolio will be a narrative section emphasizing the product of your learning. This is your final reflection after completion of the course/experience. No more than 1-page formatted in MLA style. An online reference for MLA style is Purdue OWL (http://owl.english.purdue.edu/owl)

Examples of questions or prompts for self-assessment:

- What are the strengths of this work? Weaknesses?
- What would you work on more if you had additional time?
- If you were a teacher and grading your work, what grade would you give and why?
- Using the BHS Flex Credit Rubric, give yourself a score and justify it with specific traits from the rubric.
- What do you like/dislike about your portfolio?
- What would you like a college admissions board to know about or see in your portfolio?
- I am pleased that I put significant effort into........

Evaluation / Grading Process

A committee of faculty members from Barberton High School will evaluate your portfolio. The committee will consist of an administrator, a school counselor, a teacher of record, and other teachers of the content area being studied. The Scoring Rubric on page 7 of the BHS Flexible Credit Handbook will be used by the team to evaluate your portfolio. In most cases, you will also take an end of course assessment following the submission and presentation of your completed portfolio. Your final grade will be based upon two things: the portfolio and the end of course assessment. Each must be met with 80% proficiency in order for you to receive credit for the course. If you fail to meet both requirements in the allotted time, you will be given 30 days to refine your portfolio and/or prepare to retake the assessment. If you still don't meet the requirements after the 2nd opportunity, you will receive no credit.

With 80% being the minimum grade you can earn, one of 3 things will happen upon completion of the course/experience. You will receive either an A, a B or no credit. That grade will go on your transcript. If you meet the time requirements but fail to meet 80% mastery on the portfolio, exam or both, you will not receive credit. It will be as if the course was never taken. For this option, a failing grade will be assigned only to the student who fails to make adequate progress on his/her portfolio in accordance with their stated timeline. You may withdraw a Flex Credit application within 15 calendar days after your proposed start date with no penalty. After that date, you must complete your plan earning either an A, a B, no credit, or an F (for insufficient effort).

Evaluation Checkpoints and Review Dates

Name	Course / Experience Title
evaluation committee. you will have complete outcomes with at least in your target review da must be prepared to ex	st approached by dividing it into smaller, manageable parts. This approach is suggested to help you AND the Your evaluation committee will meet four times during the course of your flexible credit experience. It is expected that d a proportionate percentage of your work by each checkpoint. For example, you should have completed 2 learning 6 artifacts for the first review date, 4 learning outcomes with 12 artifacts for the second review date, etc. When you fill ates below, you should think in terms of dividing your time and your work into 4 segments. At each checkpoint, you chibit satisfactory progress toward completion of your course/experience in order to be considered for credit. Your elp you determine your review dates.
application. Keep a co	lanning, please fill in your proposed review dates. You will turn in this schedule along with the rest of your Part C py for yourself. Check off your learning outcomes and artifacts as they are completed. The evaluation committee will copy will be updated by you as you go along.
