Avoid the summer slide...

Every year, most students return to school in August and have fallen down the summer slide...meaning they may have forgotten some of what they have learned. This is typically due to not practicing their skills over the summer. Here are a few, simple things you can do to help avoid the *summer slide*:

- Read something everyday. Read the newspaper or magazines, read signs or schedules while traveling.
- Practice math facts. Get flashcards at the dollar store or make them from summer packets. Practice 10 minutes everyday!
- Join the Barberton Public Library summer reading program...and then actually do it!!
- Set a goal to read a certain number of books this summer. The goal should be based on the age level of your student.
- Complete summer homework packet. Students will bring home reading and math activities at the end of the school year.

THANK YOU to our students who raised money for patients at the Oak Clinic for MS during this year's Diamond Run. Together, students at BEW raised over \$1700! They were very thankful for the hard work and thoughtfulness of our students.

Students had a great time that day doing laps around the field, playing catch and seeing a Rubber Ducks win!! Congratulations to JERRY LENOX who was a top collector and had the chance to take the bases with Rubber Ducks player before the game. Now there's an experience to remember!!
