

## Free Educational Apps for Preventing the Summer Slide

App Name	Recommended Grade Level(s)	Targeted Skills	Description
Kids A-Z	K-4	Reading Fluency & Comprehension	With a login provided by a classroom teacher, students can choose from a personalized library of e-books that contain quizzes for comprehension. The students can record their reading and earn incentives used in most classrooms.
Little Bird Tales	1-4	Writing, Reading Fluency	Students will be able to create their own e-book by adding text, recording their voice, and uploading or drawing illustrations. With a free membership, several books can be saved and shared at a time.
Math Academy	K-4	Addition, Subtraction, Multiplication, Division	This app provides time trials and games at easy, medium, and hard levels for addition, subtraction, multiplication, and division.
Kahoot	2-4	Any/All	With a free membership, students can take part in learning games created by other users or create their own learning games to play and share.
Read Me Stories: Learn to Read	K-2	Modeled Reading Fluency	Students can choose from hundreds of e-books, with new stories added every day. The app reads the story aloud for the child.
Third Grade Learning Games	3-4	Math skills, Grammar and Parts of Speech	This app is designed to prepare students for third and fourth grade mathematics. Students can explore games focused around fractions, multiplication, geometry, division, etc. The app also includes games for learning grammar, parts of speech, and other language arts topics.

Duolingo	1-4 English Language Learners	Learning a new language	This app is beneficial for students learning to speak English. Using Duolingo is an interactive, fun way for both children and adults to learn a new language.
ABC Alphabet Phonics	K-1	Letter Recognition	Students will practice simple letter identification and receive enthusiastic encouragement when correct. This app is best for emergent readers who are learning their letter names.
Sky Fish Phonics	K-2	Phonics	Students make their way through a fun obstacle course while answering phonics questions and earning stars for their achievements.
Sushi Monster	K-4	Math Facts	This app is a game that allows students to practice and reinforce math facts in a fun and engaging way. This game can be adapted for students at all levels.
Play Sight Words	K-4	Sight Word Recognition	Students can practice sight words, select words for additional practice, and play games using sight words. There are several free versions of this app, each one labeled for different grade levels.
Words (Sight Words)	K-4	Sight Word Recognition, Writing	Students will practice identifying and writing grade level appropriate sight words. This app also demonstrates proper letter formation.
Story Creator	K-4	Writing, Reading Fluency	Students can create simple e-books by using pictures or illustrations. The books can be emailed or saved.
Quizlet	2-4	Study Skills/Math	This flashcard app allows your student to study any subject. You can create flash cards within the app for your student or access premade flashcards created by other users.
Story Wheel (Lite)	1-4	Comprehension	Families can work together using this app to create a story by selecting a theme and each creating and recording a different section of the story.
Spelling City	K-4	Spelling, Vocabulary, Phonics	This app contains spelling and vocabulary games. The free version of the app includes 10 of the most popular games and learning activities.
