

BHS French I Summer Work (OPTIONAL !)

Bonjour! Je m'appelle Madame Bengtson. Enchantée!

This summer, you are asked to begin learning French vocabulary using a fun, interactive on-line program called Duolingo. You may use any device/computer/cell phone with wi-fi access.

Please go through each of these steps with precision. If you miss information, hopefully your progress will still show up on your classroom account. (I may have the following directions slightly out of order, so read each set first so you know what to click.)

Go to www.duolingo.com or download the Duolingo App.

If asked for the **language you will begin to study**: French

If asked about your **native/natural language**: English

If asked if you want to **sign up using your Google Account**: YES!!

If asked about how long your study sessions should be each day, I suggest 5 or 10 minutes per day. (You will see you can do less or more at any time.)

You will sign up with the following **class code**: **MVJNUE**

Your goal for the summer (**to be completed BEFORE the first day back to school**) will be **1000 XP**.

-XP stands for 'experience points'.

-You will typically earn 10 XP for 1 lesson. So 100 lessons = 1000 XP.

-1 lesson will take anywhere between 2-10 min. to complete, so 1000 XP will take around 5-8 total hours.

*Any questions with logging in, please email me: cbengtson@barbertonschools.org (take note of the spelling of my last name-it is easy to exchange the 'ts' spelling with 'st')

**All students who have completed a goal of 1000 XP before the 1st day back to school in the fall will receive a treat from me on the first day of school! More importantly though, you will receive extra knowledge and experience in the French language. If you are serious about learning another language, extra practice on your part is essential!! (And this practice just happens to be fun, and possibly obsessive!)

Joyeuses études et bonnes vacances!

-Madame Bengtson
